

BMTRADA

Q-Mark Marine plywood scheme

...WHEN EXPERIENCE MATTERS

What is the BM TRADA Q-Mark?

The BM TRADA Q-Mark is regarded as one of the most rigorous certification processes available for construction products. It enables Q-Mark customers to prove the worth of their products whilst gaining competitive advantage over other manufacturers allowing specifiers and end users to buy with confidence.

Manufacturers whose products are certified can demonstrate to customers and specifiers not only that their products are fit for purpose and safe to use, but that they have satisfied the most rigorous of quality processes.

What does the Marine Plywood Q-Mark scheme aim to achieve?

The BM TRADA Marine Plywood Q-Mark Scheme aims to achieve the following:

- to improve the quality and performance of marine plywood used within the construction industry
- to demonstrate the certified marine plywood complies with BS 1088
- to provide unambiguous evidence of compliance with the relevant standards
- to provide specifiers and regulatory and inspection authorities with the appropriate information for them to identify suitable products

The benefits of becoming a member

Provides members with a strong competitive advantage by demonstrating that they are working to established performance requirements

Association with the BM TRADA Q-Mark brand, widely recognised as a leading provider of independent third-party certification

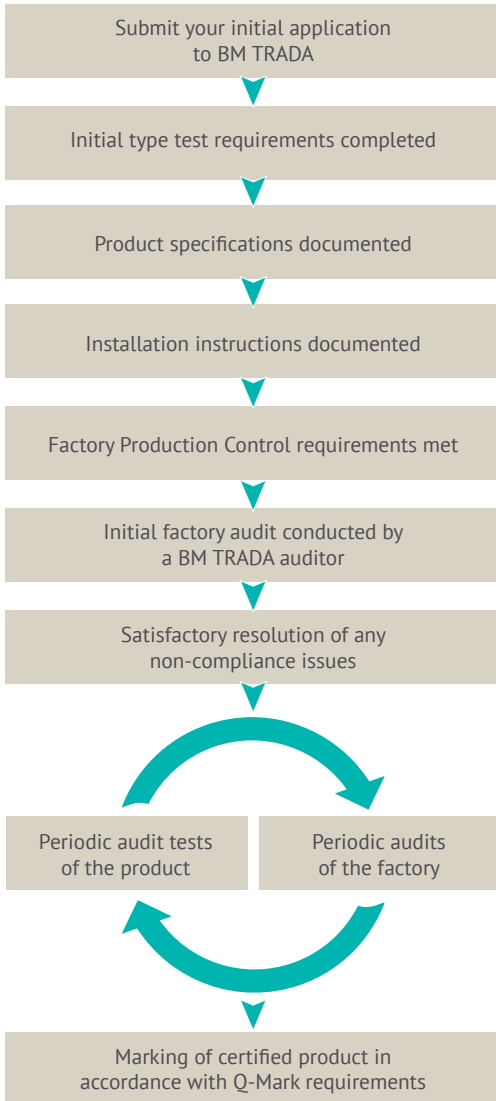

Members' details easily identifiable to specifiers via inclusion on the BM TRADA website

Helps generate new business by enabling you to tender for the increasing number of projects that specify third-party certification

Helps generate repeat business because it enhances your reputation for quality which in turn leads to customer loyalty

Achieving Q-Mark certification

If you want to become a member of the Marine Plywood Q-Mark Scheme, you'll need to undertake the following:

Why choose BM TRADA Q-Mark?

One of the UK's leading providers of independent third-party certification

A recognised and widely accepted quality mark

Independently accredited by United Kingdom Accreditation Service (UKAS)

Experts in the field of timber and wood-based products
